L'ADONÉ – WHO STANDS IN FRONT OF IT

L'ADONÉ is the brainchild of Leila Ayach, who founded the company in Zurich, Switzerland, in 2017. The journey began much earlier with the painting of soul pictures, a form of sacred art that inspires the viewer, leads them to their inner peace, and is a mirror of their unique individual beauty.

The ELENYA collection, a set of high quality exclusive extrait de perfumes followed much later and are based on the same principles as the paintings.

Leila sees everything in a holistic aspect. Everything is connected; everything is subject to the same divine principles. Perfumes are subject to the same principles as sacred paintings, pieces of music and literature. A perfume can describe a piece of music, a painting can depict a perfume. It is based on the principle of capturing the same frequency. This can be continued in fashion, in a culinary dish, in a dance, in languages, in interior design... Life is sacred and it is about regaining this awareness that the divine is reflected everywhere in beauty and harmony. It is about giving space to the divine in ourselves again and materialising this in matter.

Leila pursues the goal of creating timeless products that reflect the beauty of one's own personality and one's own individual path. These are products that reflect the luxury of the future and where society is heading in the long term. The life of one's own personality and individuality, free from judgement, the life of one's own talents and the life of freedom. Freedom in the sense that you live your own self, your personality and expression... that is the luxury of the future.

ABOUT

THE MEANING OF THE NAME L'ADONÉ

The name L'ADONÉ is derived from Ladon, the serpent-like dragon in Greek Mythology placed in the Garden of Hesperides to protect the sought after golden apples.

According to legend, Ladon was overcome by Hercules and placed among the stars. To this day the body of Ladon is entwined around the North Pole, as if recently transported to the stars, in the form of the Draco Constellation.

Each year, this constellation's meteor shower offers an astonishing display of shooting stars to many who seek a brief escape from ordinary life.

This stellar display exemplifies the essence of L'ADONÉ, a discovery of the different senses, of the treasures offered by the Planet Earth

THE COLLECTION

INTRO

L'ADONÉ symbolises the individual path with high-quality extrait de parfums that are free and independent. They are authentic, timeless products that envelop the wearer in a high-quality fragrance. Each fragrance carries a message and has been created with love and from the heart.

Each fragrance exudes its own unique energy and personality.

The simple, purist design focusses on the content, on the art of the perfume itself.

The art of combining fragrances is considered to be the highest spirit of a personality, like the right choice of colours when combining clothes, the harmonious combination of words in a poem, the arrangement of notes in a musical masterpiece, the colours in a painting and harmonious interior design.

L'ADONÉ's fragrances reflect this sensuality and beauty. Each perfume is a work of art with noble fragrance creations that reflect beauty and aesthetics. A noble fragrance is something very personal and emphasises the individuality of the wearer.

The ELENYA collection by L'ADONÉ moves beyond fashion trends and is characterised by the creation of timeless, sensual and noble fragrances of the highest quality. Just a few drops of the fragrances are enough to fulfil the spirit and enter into a fragrance experience.

Nothing is left to chance in the packaging either. The wooden cap is made of fine ash wood. The ash tree symbolises appreciating the little things in life and becoming aware of our talents and abilities. The ash tree encourages us to share our talents with the world and thus give the world a gift. The atomiser's riser tube itself is invisible in the liquid after the first use.

The selected ingredients are 100% vegan.

You can choose between woody and floral fragrances to suit your personality.
